

FLY CLEAR™

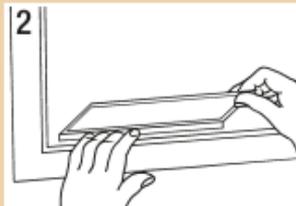

FLY TRAPS

FlyClear™ Fly Traps are pesticide-free, transparent fly traps ideal for catching house flies and fruit flies in all rooms. The flies are attracted to the glue surface, the surface lasts for weeks after removing the protective film.

WHERE TO USE:

Indoor use

HOW TO USE:

- 1) Open sealed bag and remove a trap. Bend the lower part of the trap backwards and peel off the cover paper from the narrow tape.
- 2) Fit one corner to a window by slight pressure (the window should be free of dust and grease) at a 45 degree angle.
- 3) Activate the trap by removing the protective film from the adhesive surface. One trap is enough for a normal sized window (approx 1.5m²). Check traps regularly and replace after 3 months or earlier if needed.

Read carefully and follow all instructions.

Keep out of reach of children and pets. In case of contact with the glue remove with soapy water.

You can remove any adhesive residue from windows using cleaning spirit.

Contains: Sticky traps

For Batch Number,
see top of the pack.

Evergreen Garden Care UK Ltd
1 Archipelago, Lyon Way,
Frimley, Surrey, GU16 7ER.
