

# TOMORITE®

by  
**Levington**  
EST. 1967

## PEAT FREE

### ORGANIC DEEP PLANTER

## PLANTING

Shake the bag to distribute the contents. Cut out panels along dotted lines. Delay planting tomatoes until the first flowers open.

## WATERING

After planting, water in using about 4.5 litres (approx. 1 gallon) and then water as necessary to keep the bag moist.

## FEEDING

We recommend feeding 60ml of Tomorite® Organic in 4.5 litres (1 gallon) of water. Use 4.5 litres of diluted feed for most crops, use once a week. For heavy feeders such as tomatoes under glass, feed twice a week when the fruit on the second truss has set.

## GROWING TIPS

Avoid piercing the bottom of the bag to retain water. Train plants to fan out so that they receive maximum light and air. For best results feed with Tomorite® Organic.

## STORAGE & ADVICE

Compost should be kept moist at all times and not allowed to dry out. Avoid plants sitting in water.

Use in a well ventilated place and avoid breathing in dust.

Wash hands after use.

We recommend you always wear gloves when gardening.

Store in a cool place, away from sun.

**ALWAYS USE GLOVES**

### FROM THE MAKERS OF TOMORITE

## TRUSTED BY GENERATIONS OF TOMATO GROWERS

CROP	PLANTS PER BAG	START FEEDING WHEN
Tomatoes - under glass	2	The fruit on first truss is pea sized
Tomatoes - outdoor		The fruit on second truss is pea sized
Peppers & Aubergines	2	The fruit is the size of a golf ball
Melons	2	The first fruit is swelling
Courgette/Marrows/Cucumbers	2	Picking commences

## REDUCE REUSE RECYCLE
