

Osmocote® Premium Potting Mix has been developed by horticultural experts to provide the ideal moisture and nutrient environment for healthier plants.

This formulation has been developed to provide excellent growth of both indoor and outdoor plants including ferns, flowering and foliage plants, trees and shrubs, annuals and perennials.

Controlled Release Fertiliser
Distributes nutrients as plants need it, up to 6 months

Wetting Agent
Ensures nutrients get to the root zone

Growth Stimulants
Encourage strong root development for healthier, more vigorous plants

Trace Elements
Micro-nutrients vital to plant growth

HOW MUCH MIX?

POTTING MIX

$\frac{\text{Length} \times \text{Width} \times \text{Height (cm)}}{\div 1000} = \text{Litres required}$

SUSTAINABILITY COMMITMENT

Materials used in the production of Osmocote® potting mixes are sourced from renewable and sustainable resources where possible.

Premium

HOW TO USE

Osmocote® Premium Potting Mix is ready to use straight from the bag with no further additives required.

- 1 Select a clean pot at least 25 mm wider than the original and partly fill with potting mix.
- 2 Turn the plant out of its container. Loosen root ball gently and remove any rotten or entirely dried out roots.
- 3 Position the plant in the pot and fill with potting mix. Do not pack down.
- 4 Water thoroughly and protect plant from wind, heat and strong sunlight for around 5 days.

ONGOING PLANT CARE

- Osmocote® Premium Potting Mix contains a balanced fertiliser but additional fertiliser may be required in time, depending on plant needs.
- Plants should be watered immediately after potting and frequently enough to ensure the mix remains moist but not wet. Avoid allowing plants to dry out.
- Plants should be re-potted with new potting mix when they outgrow the pot or after 12-18 months.

SAFETY TIPS

Always wear gloves when gardening.

If dusty, wear a particulate mask.

HAZARDOUS

This mix complies with the requirements of AS3743 for a premium grade potting mix.

COMPOSTS, POTTING MIXES AND OTHER ORGANIC GARDENING MATERIALS
This product is made from organic materials, including composted pinebark, and contains living micro-organisms, including bacteria, fungi and protozoa. Also contains mineral and fertiliser additives.

RISK

Inhalation of dust and/or liquid mists may irritate, inflame or sensitise the nose, throat and lungs resulting in illnesses ranging from hayfever or asthma, to pneumonia (e.g. Legionnaire's disease) or pneumonia-like illnesses. Direct contact with this material or its dust and/or liquid mists (bioaerosols) may cause skin irritation (dermatitis), and skin or eye infection or irritation. People particularly at risk are those suffering from asthma or allergies, and those whose immune defence systems are compromised.

SAFETY

Avoid contact with eyes and skin. Avoid breathing dust and/or liquid mists (bioaerosols). Wear suitable protective clothing and standard duty gloves (AS/NZS 2161.2). If exposed to dust and/or liquid mists, also wear dust resistant eye protection (AS/NZS 1336) and particulate respirator (AS/NZS 1715 and AS/NZS 1716). Wash thoroughly immediately after handling. Wash work clothes regularly. Clean up by wet sweeping or vacuuming. Store this product in a cool location.

FIRST AID

Irrigate eyes with plenty of water for 10 minutes. Wash skin with soap and water. Seek medical attention for any persistent skin, eye or respiratory symptoms.

DISPOSAL

Follow above safety precautions and collect in containers for disposal as trade waste in accordance with local authority guidelines.

For further information, refer to the SAFETY DATA SHEET.
