### SAFETY INSTRUCTIONS

#### Protection during/in use

WASH HANDS AND EXPOSED SKIN AFTER USE.

#### Environmental protection

Do not contaminate water with the product or its container.

Do not empty into drains.

Do not spray when bees are actively foraging.

Low risk on beneficial insects

#### Storage and disposal

KEEP PRODUCT IN ORIGINAL CONTAINER, tightly closed, in a safe place.

PROTECT FROM FROST.

KEEP AWAY FROM FOOD, DRINK AND ANIMAL FEEDING STUFFS.

KEEP PRODUCT AWAY FROM CHILDREN AND PETS.

FungusClear Ultra 2 Concentrate is a Fungicide, based on natural occurring active ingredients to protect roses and other ornamental plants.

For best control of the progression of the disease, spray at first symptoms and continue to spray regularly for the rest of the season, every 7 to 10 days.

### INSTRUCTION FOR USE

#### FOR USE ONLY AS A HOME GARDEN FUNGICIDE.

For indoor and outdoor use.

Read all safety instructions before use.

### WHEN TO USE

Use from April until the end of September.

**Blackspot:** Spray every 7-10 days from the onset of the infestation. If rose plants were infected with blackspot during the previous season, spraying should commence as soon as buds burst and be reapplied regularly.

**Rust and powdery mildew:** Spray at the first signs of disease and repeat regularly every 7-10 days until the disease has gone.

Spray in calm conditions, avoiding bright sunlight, drought and frosts. Latest time of use, end of September.

**Maximum number of treatments:** 6 per year at 7-10 day intervals. This full bottle treats 105m<sup>2</sup>.

### WHERE TO USE

FungusClear<sup>®</sup> Ultima 2 Concentrate is ideal for roses as well as other flowering and ornamental plants.

FungusClear<sup>®</sup> Ultima 2 Concentrate has been shown to be safe to many species and varieties of plants, however some damage may be seen with some varieties of roses. It is always advisable to test a small area of the plant, by treating it and leaving for a few days, before treating the entire or valuable collection.

### HOW TO USE

#### USE WITH A GARDEN PRESSURE SPRAYER.

1. SHAKE VERY VIGOROUSLY (FOR 5 SECONDS MINIMUM) BEFORE USE.
2. Using measuring cap provided add 20 mL for each litre of water in the sprayer. Apply using a garden pressure sprayer washed before and after use.
3. Shake sprayer to mix thoroughly and use immediately.
4. Spray on upper and lower surfaces of leaves until run-off.
5. Apply ideally in the evening (around sunset time).
