

## HOW TO USE

### FOR NEW LAWNS

Spread Miracle-Gro® Lawn Dressing over the prepared ground with the back of a rake and work it well into the surface. The seeds or turf can then be applied directly on top.

### AERATING & IMPROVING DRAINAGE

In autumn, spike the whole lawn area down to a depth of at least 8 cm with a garden fork or an aerator.

Spread Miracle-Gro® Lawn Dressing over the lawn with the back of a rake or stiff brush, working it well into the holes that have been created.

### REPAIRING DIPS AND HOLES IN YOUR LAWN

Spread Miracle-Gro® Lawn Dressing evenly into any holes in the lawn pressing it down firmly so that the ground is level and even.

You can then apply grass seed from the Miracle-Gro® Lawn Seed range, for a thick green lawn.

## USEFUL TIPS

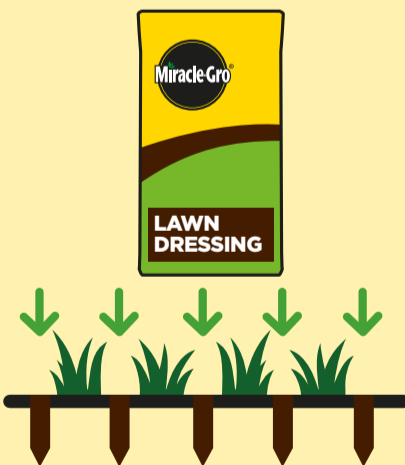

To achieve a lush, green lawn we recommend the following:

### 1. SCARIFYING

This is when you use a lawn rake to remove the build up of dead grass and moss in your lawn.

Air, nutrients and water can easily enter the soil after scarification. Deeper roots and new, stronger blades of grass are the result.

### 2. AERATING

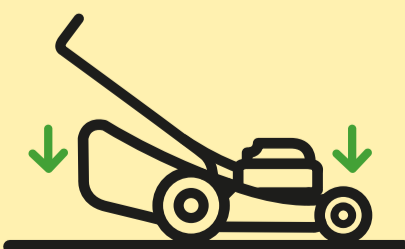

Also known as spiking the lawn. This will relieve compaction in well used areas of the lawn.

Air, nutrients and water can now enter the soil. At this stage we recommend applying lawn dressing

New deeper roots give increased lawn density in 6-8 weeks.

Higher blade setting, early season

Lower blade setting, mid season

### 3. MOWING

Start mowing in the spring with a higher blade setting, gradually lowering as the season progresses.

## CARING FOR PLANTS & THE PLANET

### RESPONSIBLE SOURCING

We are actively working on improving the responsible sourcing profile of our compost mixes year on year. Miracle-Gro® compost contains forest by-products, carefully processed to help you grow plants that improve your environment and make the world a more beautiful place.

With our partners we have restored more than 3,000 hectares of peatland in the past 30 years.
