

## HOW MUCH COMPOST IS IN THIS BAG?

**MEDIUM POTS**  
22 cm (9")

**LARGE POTS**  
25 cm (10")

**HANGING BASKETS**  
30 cm (12")

## USEFUL TIPS

- Some plants are hungrier than others so may require feeding earlier. If leaves start to pale this is a sign to start feeding, and we recommend using a **Miracle-Gro® Plant Food**.
- Try to avoid compost in pots drying out, and don't let them sit in water either, roots don't like being waterlogged!
- Before watering, always check first with the 'finger test' – pop your finger about 3 cm into the compost. If dry, get watering. If not, wait a bit longer.
- Sometimes you might see some white mould on your compost. **This is not harmful** to your plants and will disappear naturally.
- For all ericaceous (acid-loving) plants we strongly recommend using **Miracle-Gro® Peat Free Premium Azalea, Camellia, Rhododendron Ericaceous Plants Compost**.
